

SDS – Kerawax 3658

Information

1. Identification of the Substance/Preparation and the Company/Undertaking

1.1 Product identifier:

Product name: Kerawax 3658
REACH registered name: Stearic Acid
REACH registered No: 01-2119543894-28
CAS Number: 57-11-4

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use(s): SU3, SU5, SU7, SU8, SU10, SU11, SU12, SU17, SU19

1.3 Details of the supplier of the safety data sheet:

Kerax Limited
Moorland Gate House
Cowling Road
Chorley
Lancashire, PR6 9DR
Telephone: +44 (0) 1257 237350

1.4 Emergency telephone number: +44 (0) 7811 262958 (24 Hours)

Email address: laboratory@kerax.co.uk

2. Hazards Identification

2.1 Classification of the Substance or Mixture: CLP Regulation 1272/2008/EC

Does not contain any components which are hazardous according to DSD [67/548/EC] or CLP Regulation 1272/2008/EC

2.2 Label Elements:

Does not require a hazard warning label in accordance with DSD [67/548/EC] or CLP Regulation 1272/2008/EC

2.3 Other Hazards:

- **PBT:** This product is not identified as a PBT / vPvB substance
- Hot liquid may cause thermal burns.

3. Composition

3.1 Substances: Stearic Acid

CAS-No:	Substance Name	% Range	EC Number	REACH Reg No
57-11-4	Stearic Acid	100	200-313-4	01-2119543894-28

3.2 Mixtures: N/A

There are no additional ingredients present which, within current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section in accordance with Regulation (EC) No. 1272/2008.

4. First aid measures

4.1 Description of First Aid Measures

General Information: Remove contaminated / saturated clothing immediately. In case of accident or illness seek medical advice immediately.

Inhalation: Remove the affected person to fresh air, keep warm and rest. If recovery is not rapid, obtain medical attention

Skin Contact: Wash the affected parts of the body with soap and water. No emergency measures are necessary but if adverse skin effects follow, refer for medical attention.

Eye Contact: Flush eyes immediately with fresh water for at least 5 minutes while holding the eyelids open. No emergency measures are necessary but if adverse eye effects follow, refer for medical attention.

Ingestion: Do not induce vomiting. No emergency measures are needed but if adverse health effects follow or large amounts are swallowed, refer for medical attention.

Date Prepared: 20 April 2015

Date Revised: 08Jul22

Version: 3.0

Self-Protection of First Aider: First aider, pay attention to self-protection.

4.2 Most important symptoms and effects, both acute and delayed

Inhalation: Over-heated oil can produce fumes which may be irritant when breathed in.

Skin Contact: May cause slight irritation to skin.

Ingestion: No known significant effects or critical hazards

Eye Contact: May cause slight irritation to eyes, if so consult an ophthalmologist

4.3 Indication of any immediate medical attention and special treatment needed

In contact with or splashed by hot liquid:

Skin Contact Cool the skin immediately with cool water. Treat burns according to their severity. Obtain medical attention. Never try to remove the material with solvents.

Contact with eyes Cool the area immediately with cold water. Seek advice of an ophthalmologist.

Specific Treatment: First Aider, decontamination, treatment of symptoms.

Notes to doctor: Treat symptomatically.

5. Firefighting measures

5.1 Extinguishing media: Foam, dry chemical, carbon dioxide, water mist.

5.2 Special hazards arising from the substance or mixture: Slight flammability hazard when exposed to heat or flame. During a fire, toxic gases (carbon monoxide, nitrous gases) may be generated by thermal decomposition or combustion.

5.3 Advice for firefighters: Only suitably trained personnel should attempt to tackle fires. Do not stay in the danger zone without respiratory protective equipment and protective clothing.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures: Surfaces may become slippery after spillage.

6.2 Environmental precautions: Water may be used to flush spills away from sources of ignition. Do not allow the product to enter public drainage system or open water courses.

6.3 Methods and material for containment and cleaning up: Use Sand or active clay to absorb spilled substance and remove to containers for disposal

6.4 Reference to other Sections: See sections 8 and 13

7. Handling and storage

7.1 Precautions for safe handling: Avoid skin contact. Avoid inhalation of vapour, mist or fumes. Do not wear contaminated clothing. Avoid contact with the eyes – wear chemical protective goggles when handling the product. Protective clothing such as impervious gloves should be worn if skin contact is anticipated. Protective clothing should be regularly inspected and maintained, discard oil saturated leather articles. The use of barrier and after work creams may be beneficial. Wash hands after working with the material.

7.2 Conditions for safe storage, including any incompatibilities: Keep containers tightly closed. Avoid heat and sources of ignition. Store in original containers or in other mild steel or high density polyethylene containers which are closable and clearly labelled. Clean up any spilled material immediately

7.3 Specific end use(s): This material is formulated for various uses.

8. Exposure Controls/Personal Protection

8.1 Control Parameters: TWA TLV (ACGIH): 2 mg/m³ (paraffin wax fumes). However in all circumstances exposure should be kept as low as reasonably possible by good ventilation and safe working practices.

PNEC Values: - No Data Available

DNEL Values: -

Substance Name	Type	Exposure Long Term	Value	Population	Effect
Stearic Acid	DNEL	Dermal	10mg/kg bw/day	Worker	Systemic
	DNEL	Inhalation	17.632 mg/m ³	Worker	Systemic
	DNEL	Dermal	5 mg/kg bw/day	General	Systemic
	DNEL	Inhalation	4.348 mg/m ³	General	Systemic
	DNEL	Oral	2.5 mg/kg bw/day	General	Systemic

8.2 Exposure Controls:

Appropriate engineering measures: Facilities storing or utilising this material should be equipped with an eyewash facility.

Respiratory protection: Inhalation of the vapour, fumes or mists should be avoided by safe working practices and good ventilation.

Eye protection: Wear appropriate eye goggles.

Skin protection: No special precautions are needed beyond clean working conditions and safe handling practices. Change heavily contaminated clothing.

Hand protection: Use impervious gloves [conforming to EN374] PVC is suitable for casual contact. If direct contact for more than 2 hours then Neoprene or nitrile gloves recommended.

8.3 Environmental Exposure Controls: See sections 6, 7, 12 and 13

9. Physical and Chemical Properties

9.1 Information on basic chemical and physical properties:

Appearance:	Liquid (at elevated temperature) Solid (at ambient temperature)
Odour:	Typical/ Faint
Odour threshold:	Not determined
pH:	Neutral
Melting point/ Congealing point:	51 - 54°C
Boiling point/ range:	Initial boiling point 205 - 225°C
Flash Point:	> 180 °C (ASTM D92, COC)
Evaporation Point:	Not determined
Flammability (solid, gas):	May be combustible at high temperature
Explosion Limits:	Not determined
Vapour pressure:	Negligible
Vapour density:	Not determined
Relative density (at 15°C):	0.83 – 0.86
Solubility in water:	<1 mg/l
Solubility in other solvents:	Petroleum Ether, Ethyl Acetate
Partition coefficient n-octanol/water:	>3 (estimated)
Auto-ignition temperature:	350°C.
Decomposition temperature:	Not determined
Viscosity (Kinematic, at 100°C):	4.0cst
Explosive properties:	Not determined
Oxidizing properties:	Not determined

9.2 Other Information: None

10. Stability and Reactivity

10.1 Reactivity: This product is not reactive under normal storage and handling conditions (see section 7).

10.2 Chemical stability: Under normal storage and handling conditions, this product is stable. May react with strong oxidising agents, especially at high temperatures.

10.3 Possibility of hazardous reactions: No specific hazardous reactions are expected.

10.4 Conditions to avoid: Polymerisation

10.5 Incompatible materials: Alkali [lye]

10.6 Hazardous decomposition products: Carbon Dioxide

11. Toxicological Information

11.1 Information on toxicological effects - Stearic Acid

Acute Toxicity

Acute Toxicity (oral)	LD50>5000mg/kg
Acute Toxicity (dermal)	LD50>5000mg/kg
Acute Toxicity (inhalation)	LC50>0.1621 mg/l air [nominal]

Skin Corrosive / Irritation:	No known significant effects or critical hazards. Non irritating
-------------------------------------	--

Serious Eye Damage Irritation:	No known significant effects or critical hazards. Non irritating
---------------------------------------	--

Respiratory Sensitisation:	No Data Available
-----------------------------------	-------------------

Skin Sensitisation:	Not sensitising
----------------------------	-----------------

Repeated Dose Toxicity:	NOAEL
--------------------------------	-------

Mutagenicity:	Negative
----------------------	----------

Carcinogenicity:	No Data Available
-------------------------	-------------------

Reproductive Toxicity:	No Data Available
-------------------------------	-------------------

12. Ecological Information

12.1 Toxicity: Stearic Acid

Environmental Fate:	Not established
----------------------------	-----------------

Aquatic toxicity (fish):	LC50 >10000 mg/l - Leuciscus idus – [Golden orfe] 48hrs
---------------------------------	---

Aquatic toxicity (algae):	NOEC - Desmodesmus subspicatus - 72hrs
----------------------------------	--

Date Prepared: 20 April 2015

Date Revised: 08Jul22

Version: 3.0

Aquatic toxicity (invertebrate):	LC50 >20 mg/l – brine shrimp (<i>Artemia salina</i>) 48hrs
Mobility:	Solid at ambient temperature
Biodegradation:	59.48% in 140 days
Bioaccumulation potential:	BCF – 236 - 282 l/kg
Other Ecological information:	No known significant effects or critical hazards.

Results of PBT and vPvB assessment: This substance does not fulfil the criteria for being classed as a PBT or vPvB substance.

13 Disposal Considerations

13.1 Waste treatment methods: Transport to authorised waste location, or incinerate under controlled conditions (EU Directives 2000/76/EC and 1999/31EC apply). European Waste Catalogue No. 050199/130899.

14. Transport Information

14.1 UN number: Not Classified.

14.2 UN Proper shipping name: 12-Hydroxystearic Acid

14.3 Transport Hazard Class(es): Not Classified

14.4 Packing Group: Not Classified

14.5 Environmental Hazards: None

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC code: Not Classified

15. Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU Regulations	Directive 67/548/EC
	Regulation [EC] 1272/2008
	Regulation [EC] 1907/2006
	DPD 1999/45/EC

15.2 Chemical Safety Assessment: The supplier has not performed a chemical safety assessment of this substance.

16. Other Information

Indication of changes:

V2.0 – CAS & EC numbers corrected
V3.0 – Periodic Review – No changes

Abbreviations & Acronyms

PNEC	Predicted No Effect Level
DNEL	Derived No Effect Level
LD50	Median Lethal Dose
LC50	Median Lethal Concentration
CAS No	Chemical Abstract Services number
CLP	Classification Labelling and Packaging Regulation
ES	Exposure Scenario
EC	European Commission
EC No	European Chemical Number – EINECS - ELINCS
ECHA	European Chemical Agency
EINECS	European Inventory of Existing Commercial Chemical Substances
ELINCS	European List of Notified Chemical Substances.
SU	Sector of Use
BCF	Bio Concentration Factor
BOC	Biochemical Oxygen Demand
NOAEL	No Observed Adverse Effect Level

DISCLAIMER:

The information and recommendations contained herein are, to the best of Kerax Limited's knowledge and belief, accurate and reliable as of the date issued, but is offered without guarantee or warranty. They relate to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Conditions of use of the material are under the control of the user. Therefore, it is the user's responsibility to satisfy their self as to the suitability and completeness of such information for their own particular use.
